- Overview

Employer Billing is an optional module that allows you to invoice Employers in a way similar to that of Bulk Billing.

- Employer Billing is only applicable if you have the optional Employer Billing Module. If you don't, you will not be able to use this module.
- Employer Billing Module Features
 - Special Billing. The Employer Billing module allows you to invoice an Employer as you would any other entity.
 - Claim Processing. Employer type invoices can be batched, ie, a Claim prepared. This claim can then be processed as a Bulk Billing claim.
 - Individual Costing. This allows you to set different fees easily for each Employer.
 - Coding the Reason for Visit. This allows you to select a code to represent the Reason for Visit. This is done in the same way as Bulk Billing.
 - Much of the functionality in invoicing Bulk Billing entities is also relevant to Employer Claims. Bulk Billing entities are processed as Bulk Billing claims.
 - Much of the discussion on invoicing Bulk Billing entities is relevant to Employer Claims. When you invoice an Employer, you are creating a claim.
